Description

Unit 5 comprises a brand new light industrial/research and development facility of steel portal frame construction, with steel profile clad and glazed elevations.

Vehicle access to the unit is gained via a sectional up and over insulated loading door in the front elevation. Internally, the premises have a minimum clear eaves height of 5.8m.

A first floor mezzanine floor is fitted.

At the front of the unit there is a separate pedestrian entrance and WC facilities. Office accommodation could be incorporated at ground and first floor by a tenant.

The premises benefit from a 3 phase electrical power supply, electric vehicle charging point and BT Openreach fibre connection to the property, offering speeds of up to 1GB/s.

Externally the unit benefits from a generous car parking provision and loading area.

Accommodation

Name	sq ft	sq m
Ground	4,951	459.96
