VAT	To be confirmed
Legal Fees	Each party to bear their own costs
EPC Rating	E

Description

The Summit comprises a two storey plus basement red brick building dating back to 1898, formerly the historic Fox and Crown Public House also known as The Summit which was later converted to a health and medical centre with a mixture of both offices and medical consultancy rooms. The building currently operates as a mixture of offices and health care rooms to this day but has recently been granted planning permission for a large residential dwelling.

The planning permission granted is a for a 3-bedroom property with 2 ensuites, 3 bathrooms, a dining room on the ground floor and a living room and home cinema in the basement as well as a rooftop terrace and exterior courtyard.

The building offers a rare opportunity to acquire a characteristic building in the heart of Highgate Village suitable for owner occupiers or developers.

Location

The Summit is located within the affluent area of Highgate, just 0.7 miles form Highgate Station and 0.8 miles from Archway Station. It also has excellent road connectivity into and out of London via the A1.

The property is adjacent to Witanhurst, a large Grade II listed 1930s Georgian Revival mansion.

Income

7 of the buildings consultancy rooms are currently occupied by way of short term license agreements with the building currently producing approx £82,000.00 per annum with scope for uplift subject to asset management and letting of the vacant rooms.

AML

To comply with the Money Laundering Regulations 2017, we are legally required to verify the identity of all parties to a transaction. Prospective purchasers/tenants must provide satisfactory identification documents and information regarding the source of funds. These checks will be carried out by an independent party before any agreement is formally entered into. The tenant or purchaser will be responsible for these costs.

Do not scale from this drawing. Use figured dimensions only. Figured dimensions are in millimetres except where indicated otherwise. All levels are in metres. All dimensions and levels shall be verified on site before proceeding with works. This drawing is to be read in conjunction with other documentation from the architect, design team and main contractor. The architect must be notified of any discrepancy. Where building components are described in the specification as contractor designed, 'construction' information relating to those components on this drawing represents design intent only.
