

EXISTING WAREHOUSE UNIT

CAVALRY CONNECT

127,491 SQ FT

CAVALRY CONNECT comprises a four bay detached industrial/distribution warehouse unit with two storey office accommodation, two service yards on a secure self-contained site and benefits from excellent parking for cars and HGVs.

Situated on Cavalry Hill Industrial Estate, Weedon, between Daventry Town Centre and Northampton Town, the site benefits from immediate access to the A5 and A45.

To the East, the A45 Daventry Development Link Road which completed in November 2018 provides an access route to the property, signifying Northampton County Council's commitment to the area.

The road was designed so that it could be upgraded to a dual carriageway in the future and connects directly with Junction 16 of the M1 Motorway and the A4500, which links into Northampton Town Centre.

The A5 provides access to DIRFT and Junction 18 of the M1 Motorway to the north and Milton Keynes to the south. Local occupiers include Ford, Driver & Vehicle Standards Agency, LM Manufacturing & Quality Nut Products.

LOCATION

Weedon is situated at the heart of the Golden Triangle at the centre of the National Motorway Network. Its central location means that 98% of the British population can be accessed within the 4.5hr HGV drive time limit.

The M1 provides a north-south arterial route, stretching almost 200 miles and connecting London to the north of England, linking major centres including Luton, Leicester, Derby, Nottingham and Sheffield. Daventry International Rail Freight Terminal (DIRFT) lies 11 miles north of the property via the A5 Motorway and is one of the busiest rail freight terminals in the UK, serving all major European and domestic rail freight locations.

Luton, Birmingham and East Midlands International Airports are all situated within a 1-hour drive time, with the latter being Britain's largest dedicated air freight hub.
